Calibration Options choose one	2-Point Single Probe \$45	2-Point Dual Probe \$60	3-Point \$50
2-Point calibration at Refrigerator & Freezer temps (+5 deg C & -15 deg C)			
3-Point calibration at Refrigerator, Freezer and Ambient (+5 deg C, -15 deg C and 25 deg C)			
Please specify calibration points requested:			

<u>Important Info:</u>	Please send your probe with the data logger for calibration
<p>Control Solutions does not need the glycol bottle; snip the zip tie around the collar of the glycol bottle and slide the probe out. Keep the glycol bottle in a safe place to prevent spilling. Calibration turnaround is typically 2-4 business days once received. Return shipping charges will be added to your invoice, depending on number of devices, shipping speed requested, and location.</p>
